

Helping to bridge the Gap between you, and one of your biggest potential customer bases: Nursing mothers

## Become a Volunteer for Breastfeeding Welcome Here

The Breastfeeding Welcome Here Project is focused on helping nursing mothers to be more comfortable feeding their babies when in public places. Providing a comfortable, shame free area for nursing mothers in area businesses such as shops, libraries and shopping venues means more moms being able to have the freedom to be away from the home longer and enjoy their community more.
